3. ☐ At least one amendment has been filed subsequent to the final rejection, and the brief does not contain a statement of the status of each such amendment (37 CFR 41.37(c)(1)(iv)).
4. ☒ (a) The brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number and to the drawings, if any, by reference characters; and/or (b) the brief fails to: (1) identify, for each independent claim involved in the appeal and for each dependent claim argued separately, every means plus function and step plus function under 35 U.S.C. 112, sixth paragraph, and/or (2) set forth the structure, material, or acts described in the specification as corresponding to each claimed function with reference to the specification by page and line number, and to the drawings, if any, by reference characters (37 CFR 41.37(c)(1)(v)).

9. ☐ The brief does not contain copies of the decisions rendered by a court or the Board in the proceeding identified in the Related Appeals and Interferences section of the brief as an appendix thereto (37 CFR 41.37(c)(1)(x)).
10. ☐ Other (including any explanation in support of the above items):

The requirements under this heading are set forth below:

37 CFR 41.37(c)(1)(v) requires the summary of claimed subject matter to include: (1) a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number and to the drawing, if any, by reference characters and (2) for each independent claim involved in the appeal and for each dependent claim argued separately, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

The Examiner notes applicant's discussion starting with the last paragraph on page 4 under the heading of Summary of the Claimed Subject Matter through the first paragraph of page 7. The information provided by the applicant in these paragraphs is not directed to the claimed subject matter. On page 4, applicant identifies independent claim 73 and directs the board to these elements as being best illustrative of the issues presented on appeal. The applicant then describes Figures 1 and 2B. On page 5, applicant states that dependent claims are consistent with this context and require that the claimed electronic marketplace include a database for storing transaction data and provide a web-based interface. The applicant then provides a detailed description of Figure 2B.

On page 7, applicant states that applicant's other independent claims require feature similar to claim 73. The applicant then discusses claims 49 and 58 without referencing the specification or the drawings. Claims 58 and 67-69 are method claims. Applicant must provide a concise explanation of the subject matter in each independent claim involved in the appeal. The applicant fails to address independent claims 66-72 although applicant argues these claims (see page 30).. Applicant is required to provide an explanation for each independent claim. Referring to claim 73, a system claim, does not provide a concise explanation of the subject matter in the method claims nor does referencing the structure of the system provide reference for the steps of the method claims.

This section requires a summary of the claimed invention, not a summary of what the Figures show or the specification discloses. the heading has been changed from Summary of the Invention to Summary of the Claimed Invention. Only if applicant has claimed the limitations do they become relevant.

37 CFR 41.37(c)(1)(v) further requires the summary of claimed subject matter to include a concise explanation of the subject matter defined in each of each dependent claim argued separately. Applicant has not provided such a summary for any of the dependent claims. However, applicant argues separately dependent claims 52, 53, 54, 55, 51, 60, 61, 62, 63, 64, and 65..

As of this time, applicant should also note the related notice of appeal filed in application 09/504159. This application is a continuation of 09/504159.
